

SAFE USE OF DIGITAL TECHNOLOGIES AND ONLINE ENVIRONMENTS POLICY

Our Service is committed to fostering a culture that creates and maintains a safe online environment with support and collaboration from staff, families and community. As a child safe organisation, our Service embeds the [National Principles for Child Safe Organisations](#) and continuously addresses risks to ensure children are safe in physical and online environments. Digital technologies have become an integral part of many children's daily lives. For this reason, it is important that our educators are not only familiar with the use of digital technologies, but are able to guide children's understanding of, and ability to interact, engage, access and use a range of digital technology in a child safe environment.

NATIONAL QUALITY STANDARD (NQS)

| QUALITY AREA 2: CHILDREN'S HEALTH AND SAFETY | | |
|----------------------------------------------|-----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2.2 | Safety | Each child is protected |
| 2.2.1 | Supervision | At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard. |
| 2.2.3 | Child Safety and Protection (effective Jan 2026) | Management, educators and staff are aware of their roles and responsibilities regarding child safety, including the need to identify and respond to every child at risk of abuse or neglect |
| QUALITY AREA 7: GOVERNANCE AND LEADERSHIP | | |
| 7.1.2 | Management System | Systems are in place to manage risk and enable the effective management and operation of a quality service that is child safe. |

PURPOSE

Children’s safety and wellbeing is paramount and our Service has the responsibility to provide and maintain a safe and secure working and learning environment for staff, children, visitors and contractors, including online environments. We aim to create and maintain a positive digital safe culture that works in conjunction with our Service philosophy, and privacy and legislative requirements to ensure the safety of enrolled children, educators and families.

The use of Close Circuit Television (CCTV) installed at the Service aims to address crime prevention strategies to reduce concerns, deal with complaints and support investigations. Our Service adheres to the Privacy Act 1988 (Privacy Act) and comply with the Australian Privacy Principles.

SCOPE

This policy applies to children, families, staff, educators, management, approved provider, nominated supervisor, students, volunteers and visitors of the Service.

| TERMINOLOGY | |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artificial intelligence (AI) | An engineered system that generates predictive outputs such as content, forecasts, recommendations, or decisions for a given set of human defined objectives or parameters without explicit programming. |
| Cyberbullying | When someone uses the internet to be mean to a child or young person so they feel bad or upset |
| Cyber safety | Safe and responsible use of the internet and equipment/devices, including mobile phones and devices. |
| Disclosure | Process by which a child conveys or attempts to convey that they are being or have been sexually abused, or by which an adult conveys or attempts to convey that they were sexually abused as a child |
| Generative artificial intelligence (AI) | A branch of AI that develops generative models with the capability of learning to generate novel content such as images, text and other media with similar properties as their training data |
| ICT | Information and Communication Technologies |
| Illegal content | Includes: images and videos of child sexual abuse Content that advocates terrorist acts Content that promotes, incites or instructs in crime or violence Footage of real violence, cruelty and criminal activity |
| Optical Surveillance Device | Has the same meaning as in section 6(1) of the Surveillance Devices Act 2004 of the Commonwealth |

| | |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Online hate | Any hateful posts about a person or group based on their race, religion, ethnicity, sexual orientation, disability or gender |
| Smart toys | Smart toys generally require an internet connection to operate as the computing task is on a central server |
| Sexting | Sending a sexual message or text, with or without a photo or video. It can be done using a phone service or any platform that allows people to connect via an online message or chat function |
| Unwanted contact | Any type of online communication that makes you feel uncomfortable, unsafe or harassed. |

Source: Glossary to NQF Child Safe Culture and Online Safety Guides - ACECQA 2025

IMPLEMENTATION

Our Service uses digital technology and electronic devices as a tool for learning with children, documenting their learning and development, communicating with families and the wider community, supporting program planning and administration tasks and enhancing safety and security through systems such as sign in/out platforms and CCTV monitoring. Our educators are diligent in ensuring children are only able to access age-appropriate technology on a Service issued device.

DIGITAL TECHNOLOGY AND ELECTRONIC DEVICES USED AT THE SERVICE

Our Service adopts and aligns with the [National Model Code](#) for taking images or videos of children.

The approved provider will inform staff, educators, visitors, volunteers and family members that the use of personal electronic devices used to take photos or capture video of children who are being educated and cared for at the Service is strictly prohibited. This includes items such as tablets, phones, digital cameras, smart watches, META sunglasses and personal storage and file transfer media (such as SD cards, USB drives, hard drives and cloud storage) and other new and emerging technologies.. These devices should not be in the possession of staff, educators or visitors (e.g. ECIP professionals) while working directly with children.

Staff and educators must only access Service email accounts on Service issued and managed devices. Accessing Service email on personal devices is not permitted.

Staff and educators are advised that electronic devices issued by and registered with the Service must not be removed from the premises as they may contain personal details of staff or children, including photos or videos. Exemptions may apply when required for operational activities, for example excursions or transportation.

The approved provider will inform staff, educators and visitors of exemptions that may warrant a person to use or be in possession of a personal electronic device that can be used to take images or videos. Staff, educators or visitors with an exemption must not use the personal device to take images or videos of children. Exemptions will be documented in writing using the Electronic Device Exemption Form and may include:

- Emergency communication during incidents such as a lost child, injury, lockdown, or evacuation
- Personal health needs requiring device use (e.g. heart or blood sugar monitoring)
- Disability related communication needs
- Urgent family matters (e.g. critically ill or dying family member)
- Local emergency event to receive alerts (e.g. government bushfire or evacuation notifications)

Our Service will develop and maintain a register of all electronic devices purchased for and used within the Service. This register will include details such as the device type, date of purchase, intended use, assigned user (if applicable), security settings, and any features related to connectivity, data storage, or recording capabilities. Devices recorded in the register may include, but are not limited to, computers, tablets, mobile phones, cameras, CCTV systems, smart toys, baby monitors and any other internet-connected or data-enabled devices used within the Service.

Children enrolled at our Service are not permitted to bring electronic devices to the Service, unless an exception has been discussed with the approved provider or nominated supervisor where the device may be required to support a diagnosed medical condition or disability. If a child brings an electronic device to the Service, it will be switched off and stored in a locked cupboard.

IMAGES AND VIDEOS

The approved provider is responsible for determining who is authorised to take, use, store and destroy images and videos of children using Service issued digital devices. Images and videos will be stored securely with password protection, with access limited to authorised personnel only. Images and videos of children must only be taken and used in accordance with Service policies, and careful consideration given to the purpose of the image or video. Educators will engage in discussions that consider the intent, appropriateness, context and consent involved in capturing and using the images and videos, ensuring the process aligns with children's learning, wellbeing and right to privacy.

Our Service will regularly review how digital data, including images and videos of children, is stored. Digital data stored at the Service will be destroyed in accordance with the Safe use of digital

technologies and online environments procedure and Record Keeping and Retention Policy and procedure. The approved provider will ensure staff, educators, visitors and volunteers do not transfer images or videos from Service issued devices to personal devices.

Unauthorised transferring of digital data may result in disciplinary action.

PHYSICAL ENVIRONMENT AND ACTIVE SUPERVISION

The approved provider, nominated supervisor, management and educators will:

- ensure children are always supervised and never left unattended whilst an electronic device is connected to the internet
- provide a child safe environment to children- reminding them if they encounter anything unexpected that makes them feel uncomfortable, scared or upset, they can seek support from staff
- ensure all visitors and volunteers are supervised at all times
- where digital devices are used during transportation and excursions, they must be used in accordance with practices outlined within this policy and associated procedure.

SOFTWARE PROGRAMS AND APPS

Our Service uses a range of secure software programs and apps on Service-issued devices to support the educational program and administration of the Service. All apps used by staff, educators, visitors and children are carefully selected, regularly checked and kept up to date with the latest available system updates. Access to software programs and apps are password protected to ensure the privacy of children, families and staff. Each user is required to create their own user account and ensure log in, and password information is not shared.

The approved provider will ensure programs which require additional background checks, such as CCS Software, are only accessed by authorised staff who have completed necessary screening processes in accordance with Family Assistance Law. Our educational program software is used by educators to share observations, photos, videos, daily reports, and learning portfolios with families in a secure, closed platform. In addition, our Service may use accounting and payroll software such as Xero, HR systems, and compliance tools. These platforms assist in managing the Service's financial, staffing, and operational requirements.

ARTIFICIAL INTELLIGENCE (AI) INTERACTIONS AND GUIDELINES

Educators or staff using AI are to be aware of limitations, privacy risks, and the potential for errors in the information it provides. AI can support and assist staff as a documentation tool; however, it is their responsibility to ensure the information's accuracy and not rely upon it as an authoritative source. Staff and educators should ensure they enter original work into the AI program and are required to monitor, verify, and check information obtained from AI to ensure specific details are contextually relevant. Data and privacy concerns must be addressed, and staff should not enter details which may identify individual children, such as names and date of birth.

CONFIDENTIAL AND PRIVACY GUIDELINES

Our *Privacy and Confidentiality Policy* applies to all use of digital technology and online environments. All staff, educators, and visitors must ensure that any information, images, or digital content related to children, families, and the Service is collected, stored, used, and shared in accordance with privacy legislation and Service procedures, to maintain confidentiality and protect the safety and wellbeing of children. The nominated supervisor will advise the approved provider as soon as possible regarding any potential threat to security information and access to data sensitive information. Our Service will follow practices outlined within the *Safe Use of Digital Technologies and Online Environments Procedure* to protect personal and sensitive digital data.

The approved provider will notify the Office of the Australian Information Commissioner (OAIC) in the event of a possible data breach by using the online [Notifiable Data Breach Form](#). This could include:

- a device containing personal information about children and/or families is lost or stolen (parent names and phone numbers, dates of birth, allergies, parent phone numbers)
- a data base with personal information about children and/or families is hacked
- personal information about a child is mistakenly given to the wrong person (portfolios, child developmental report)
- this applies to any possible breach within the Service or if the device is left behind whilst on an excursion
- ensure educators are aware of their mandatory reporting requirements and report any concerns related to child safety including inappropriate use of digital technology to the approved provider or nominated supervisor.

IDENTIFICATION AND REPORTING OF ONLINE ABUSE AND SAFETY CONCERNS

Our Service will implement measures to keep children safe whilst using digital technology and accessing online environments.

The approved provider, nominated supervisor and management will:

- ensure all staff, educators, students and volunteers are aware of their mandatory reporting obligations and promptly report any concerns related to child safety, including inappropriate use of digital technology, to the approved provider or nominated supervisor [See *Child Protection Policy*]
- support educators to:
 - encourage children to seek support if they encounter anything unexpected that makes them feel uncomfortable, scared or upset
 - listen sensitively and respond appropriately to any disclosures children may make relating to unsafe online interactions or exposure to inappropriate content, adhering to the *Child Protection Policy, Behaviour Guidance: Bullying Policy* and reporting procedures
 - respond to and report any breaches and incidents of inappropriate use of digital devices and online services to management
- ensure all concerns are documented and responded to promptly and appropriately, with support provided to the child and their family as required
- report any suspected cases of online abuse to the relevant authorities, including the eSafety Commissioner and Police, in accordance with legal requirements and child protection procedures
- notify the regulatory authority within 24 hours, via [NQA ITS](#), if a child is involved in a serious incident, including any unsafe online interactions, exposure to inappropriate content, or suspected online abuse.

USE OF CLOSED-CIRCUIT TELEVISION (CCTV) MONITORING

Our Service uses Closed-Circuit Television (CCTV) to monitor the physical environment. Our Service will regularly review guidance on the use of surveillance devices, including information provided by the Office of the Australian Information Commissioner.

Families are informed the Service uses CCTV as a surveillance method during enrolment and orientation to the Service.

Closed-Circuit Television (CCTV) operates at the Service and comprises of:

- Fixed position cameras
- A monitor

- Digital Hard Drive Recorder
- 1 Public Information Sign

Cameras have been positioned to maximise the viewed areas in children’s classrooms, internal hallways and foyer areas, children’s playgrounds and the car parking area.

The CCTV recording system operates in real mode, monitoring the site continuously 24 hours a day.

Footage and information collected via the recording system will be governed by [Australian Privacy Principles](#) and all relevant staff will be kept up to date with requirements under Australia’s privacy law (There are some Commonwealth, State and territory laws that restrict the use of listening, optical, data and tracking surveillance devices).

CCTV footage is stored securely at the Service using a 4TB Network Video Recorder (NVR) system. The system continuously records video footage from the date of setup and operates on an automatic overwrite cycle. When the hard drive reaches capacity, the oldest footage is automatically replaced with new recordings. This looped recording process ensures ongoing storage without manual intervention.

Access to the CCTV system is restricted to authorised personnel only. Each authorised user is assigned unique login credentials, which are not to be shared under any circumstances. Access is limited to:

- The Operations Manager
- The Area Manager
- The Nominated Supervisor

These access controls help ensure that all footage remains secure and protected against unauthorised access.

The system also features an internal audit trail within the NVR settings. This log records key user activity, including:

- The identity of the user who logged in
- Which cameras were accessed or footage downloaded
- Whether access occurred locally or remotely

Access to the recordings will only be disclosed to:

1. the Ombudsman to assist with investigations on ‘child protection’ (e.g., abuse, neglect and ill treatment).

2. to a member or officer of a law enforcement agency e.g., Police for use in assisting with investigations

THE APPROVED PROVIDER/NOMINATED SUPERVISOR/MANAGEMENT WILL ENSURE:

- that obligations under the *Education and Care Services National Law and National Regulations* are met
- educators, staff, students, visitors and volunteers have knowledge of and adhere to this policy and associated procedure
- new employees, students and volunteers are provided with a copy of the *Safe Use of Digital Technologies and Online Environments Policy* and procedure as part of their induction and are advised on how and where the policy can be accessed
- all staff, educators, volunteers and students are aware of current child protection law, National Principles for Child Safe Organisations and their duty of care to ensure that reasonable steps are taken to prevent harm to children
- families are aware of this *Safe Use of Digital Technologies and Online Environments Policy* and procedure and are advised on how and where the policy can be accessed
- they promote and support a child safe environment, ensuring adherence to the *Child Safe Environment and Child Protection Policies*, including mandatory reporting obligations
- the National Principles for Child Safe Organisations is embedded into the organisational structure and operations
- develop and monitor an *Electronic Device Register* for all electronic devices purchased and used at the Service
- appropriate ratios and adequate supervision are maintained for children at all times including when using digital technology and accessing online environments
- students, volunteers and/or visitors are never left alone with a child whilst at the Service under any circumstances
- all staff, educators, volunteers and students are aware of the National Model Code and [Guidelines](#) and strictly adhere to these guidelines for taking images or video of children including:
 - personal electronic devices or personal storage devices, that can take images or videos, are not used by educators, staff, visitors or volunteers when working directly with children
 - staff and educators only use electronic devices issued and registered with the Service for taking images or videos of children enrolled at the Service

- Service issued devices are securely configured, monitored and maintained to prevent unauthorised access
- visitors who are supporting children at the Service (NDIS funded support professionals, Inclusion Support Professionals) obtain written authorisation from parents/guardians to capture images or video of a child for observation/documentation purposes only.
- children, educators and parents are aware of our Service’s complaints handling process to raise any concerns they may have about the use of digital technologies or any other matter (see: *Dealing with Complaints Policy*)
- the Service *Privacy and Confidentiality Policy* is adhered to at all times by staff, educators, families, visitors, volunteers and students
- parents/guardians are informed of how the Service will take, use, store and destroy images and videos of children enrolled at the Service during enrolment and orientation
- written authorisation is requested from families to take, use, store and destroy digital documentation including images and videos of children
- images or videos of children are not taken, used or stored without prior parent/guardian authorisation
- a record of all children who are NOT to be photographed or captured on video is to be developed, maintained and shared with educators and staff. This record will remain private and confidential.
- written authorisation is obtained from parents/guardians to collect and share personal information, images or videos of their children online
- that the Service seeks written authorisation from parents/guardians for their child to be photographed when an outside photographer/agency is contracted to take photographs for marketing purposes or to take individual and group photos. Only children who have written authorisation from their parent/guardian will be included in any photography.
- that the children of parents/guardians who do not wish their child to be photographed or videoed are provided with other activities when an external photographer/agency is engaged
- families are informed to withdraw authorisation, a written request is required
- images and videos for individual children are deleted or destroyed and removed from storage when authorisation has been revoked from the parent/guardian
- they review how images and videos are stored on a regular basis and ensure new educators and staff have access to relevant folders and files, if required, in accordance with their role
- digital data is stored securely, whether offline or online, using a cloud-based service, and that data is archived regularly

- images and videos are deleted or destroyed and removed from storage devices in accordance with the *Record Keeping and Retention Policy*, images and videos used for documenting children’s learning and development must be held for 3 years after the child’s last day of attendance
- every child in our care is protected from any exploitation of photographic and video images of themselves whilst they attend the Service
- images or videos of children must be appropriate in nature and must not show children in distress, in a position that may be perceived as sexualised or in a state of undress, including where genitalia may be exposed
- external agencies or specialists are consulted if concerns are identified relating to online abuse, cyberbullying or digital safety risks
- policies and procedures reflect a commitment to equity and diversity, protect children’s privacy, and empower children to be independent
- collaboration with relevant professionals, as required, to support equitable access to digital technologies for all children
- they remain informed of privacy legislation through monitoring of updated from relevant government authorities such as the Office of the Australian Information Commissioner (OAIC)
- a risk assessment is conducted regarding the use of digital technologies by staff and children at the Service, including accessing online environments
- risk assessments for digital technology and online environments are reviewed annually or as soon as possible after becoming aware of any circumstances that may affect the safety, health or wellbeing of children
- policies and procedures are reviewed following an identification of risks following the review of risk assessments relating to the use of digital technologies and online environments
- staff, educators, families and children are informed of updates to policies, procedures or legislation relating to digital technologies and online environments
- a review of practices is conducted following an incident involving digital technologies or online environments, including an assessment of areas for improvement
- to install and maintain anti-virus and internet security systems including firewalls to block access to unsuitable web sites, newsgroups and chat rooms
- educators are informed of, and adhere to recommended timeframes for ‘screen time’ according to Australia’s Physical Activity and Sedentary Behaviour Guidelines:
 - children birth to one year should not spend any time in front of a screen
 - children 2 to 5 years of age should be limited to less than one hour per day

- children 5-12 years of age should limit screen time for entertainment to no more than 2 hours a day.
- they share information to families about recommended screen time limits based on *Australia's Physical Activity and Sedentary Behaviour Guidelines*.
- all documentation and records relating to safe use of digital technologies are kept safe and secure for a period of 3 years following the child's last day of attendance
- a review of practices is conducted following an incident involving digital technologies and online environments, including an assessment of areas for improvement.

EDUCATORS WILL:

- adhere to the *Safe Use of Digital Technologies and Online Environments Policy* and associated procedure
- ensure they are aware of current child protection law, National Principles for Child Safe Organisations and their duty of care to ensure that reasonable steps are taken to prevent harm to children
- ensure they promote and support a child safe environment, including adherence to the *Child Safe Environment* and *Child Protection* policies and mandatory reporting obligations
- understand the critical importance of implementing active supervision strategies when children are accessing online environments to keep children safe
- promote and contribute to a culture of child safety and wellbeing in all aspects of our Service's operations, including when accessing digital technologies and online learning environments
- not use, or have access to, any personal electronic devices, including mobile phones or smart watches used to take images or video of children at the Service, access social media (Facebook, Instagram or other) while working directly with children
- not breach children and families' privacy
- keep passwords confidential and log out of computers and software programs after each use
- ask permission before taking photos of children on any device and explain to children how photos of them will be used and where they may be published
- ensure children's personal information where children can be identified such as name, address, age, date of birth etc. is not shared online
- ensure that screen time is NOT used as a reward or to manage challenging behaviours under any circumstances
- introduce concepts to children about online safety at age-appropriate levels

- support children’s understanding of online safety by providing age-appropriate guidance, discussions and activities that help them to recognise safe and unsafe online behaviours
- consult with children about matters that impact them, including the use of digital technologies and online environments, to ensure their voices are heard and respected in a meaningful way.

FAMILIES WILL:

- adhere to the *Safe Use of Digital Technologies and Online Environments Policy* and associated procedure
- not use personal electronic devices, such as mobile phones, smart watches or META sunglasses, to take photos or capture video of children being educated and cared for at the Service
- provide written authorisation indicating whether or not the Service may take, use, store or destroy images or videos of their child
- provide written notification if they wish to withdraw the authorisation for the Service to take, use, store or destroy images and videos of their child
- be requested to provide written authorisation/consent for individuals visiting the Service to take photographs of their child/ren (e.g., ECIP professionals, professional photography for marketing, school photos etc.)
- be provided with clear information about how to make a complaint and our complaints handling processes
- be aware that sometimes other children in the Service may feature in the same photos, videos, and/or observations as their children. In these cases, families are never to duplicate or upload them to the internet/social networking sites or share them with anyone other than family members.

VISITORS AND VOLUNTEERS WILL:

- adhere to the *Safe Use of Digital Technologies and Online Environments Policy* and associated procedure whilst visiting the Service
- not use personal electronic devices, such as mobile phones smart watches or META sunglasses, to take photos or capture video of children being educated and cared for at the Service
- report any concerns related to child safety, including inappropriate use of digital technology, to the approved provider or nominated supervisor

BREACH OF POLICY

Staff members or educators who fail to adhere to this policy may be in breach of their terms of employment and may face disciplinary action which may lead to notification to the regulatory authority and child protection authorities. Visitors or volunteers who fail to comply to this policy may face termination of their engagement. Family members who do not comply with this policy may place their child's enrolment at risk and limit the family members' access to the Service.
